

## Debbie

by Debbie, 27-Jun-12 05:00 PM GMT

It seems the right time to start my diary and I will start with putting on a picture of each of the different butterflies I have already taken.

A few more of my pictures so I can keep a record of the species I have seen (20ish so far), it will take me a couple of hits to pop them into the diary. Please let me know if I have got any wrongly identified. To be continued. Debbie 😊😊😊

Hi Debbie,

some lovely photos, especially the Large Skipper in half shade and half sun, you have captured it beautifully.  
All the best, Nick.

Thank you Chris, Nick & Wurzle for your kind comments – it means a lot. Here are a few more pictures ( some better than others). But as this is to keep a record of what I have seen – in they go. 😊

Again, please let me know if I have id them incorrectly. 🤔

Still another batch to upload 😊

Debbie 😊😊😊
